Hiring Manager
ALTA Computec PLC
Mexico, Addis Ababa

Subject: Application for Junior Software Engineer Position

Dear Hiring Manager,

I am writing to apply for the Junior Software Engineer position at ALTA Computec PLC. I am a motivated software developer based in Addis Ababa with a strong academic and practical background in Software Design and Development, including web application development, mobile application development, full-stack systems, and e-commerce solutions.

I have developed solid skills in building responsive web applications and working with modern development tools and technologies. My experience includes designing user-friendly interfaces, developing backend functionality, and working with APIs to integrate external services. I also have a good understanding of software engineering principles, Git version control, and collaborative development workflows.

I am particularly interested in this opportunity at ALTA Computec PLC because of your focus on building scalable digital solutions and your commitment to modern software engineering practices such as CI/CD and API-driven systems. I am eager to contribute to your team while continuing to grow my technical skills in a professional environment.

I am a fast learner with strong problem-solving abilities and good communication skills, and I enjoy working in team-oriented environments where I can contribute to meaningful projects and real-world solutions.

I would welcome the opportunity to further discuss how my skills and enthusiasm can contribute to your development team. Thank you for your time and consideration.

Sincerely,
Samuel Eshete
